

To Infer or Not To Infer

Use your knowledge and information from pictures to practice making inferences.

Place the inference mat in front of you and select a picture card. Find the letter on the picture card and the three inference cards with the same letter.

Look at the picture and read the three inferences. Using clues from the picture and your own knowledge, decide which two statements you can infer from the picture and statement you can't infer.

can infer

can infer

can't infer
